TRAININGS

Core Java

Codegrip, Lucknow

Jun 2023 - Sep 2023

Training focuses on the fundamentals of Java programming. It gives the Confidence to make a career in Java development. It consists of the introduction of Java, OOPs, and many more.

HTML, CSS And JavaScript

Softcon pvt ltd, Lucknow

May 2022 - Sep 2022

It provides knowledge of HTML, CSS, and Javascript.

PROJECTS

Library management System

Sep 2023 - Jan 2024

Technology: Java, JFrame, HTML, Java Swing.

I developed a comprehensive Library Management System using Java and the JFrame library for the graphical user interface. This project effectively managed library operations such as book and member management, issue and return of books, and fine calculation. It also included features like searching for books, generating reports, and managing user accounts. The project showcased my proficiency in Java programming and graphical interface design, highlighting my ability to create functional and user-friendly software solutions.

Automatic car plate number detection

Sep 2022 - Mar 2023

Project name: Automatic Car Plate Number Detection technology used:
Python and its library

It is capable to detect the plate number and show the vehicle number
on the computer screen.
